## OUR PURPOSE

To improve the quality of patient care and health services within the community.

## OUR VISION

To provide quality, high standard healthcare that is affordable and accessible to all our clients/patients irrespective of social economic status, through a highly motivated and skilled staff, innovation and modern technology in healthcare to make healthcare accessible and affordable.

## OUR MISSION

Working hand in hand with our patients and clients to sustainably shape the future of health care. A patient-centered approach to ensure quality, standards, accessibility and affordability of healthcare.

## OUR VALUES

We are a client/patient centered institution that values our clients/patients contribution to growth and care by offering high quality and high standards of care. Our values are based on;

- Safety in everything we do
- Our patients are our focus
- We care for the community
- We care for the environment
- Our people are our strength
- We act ethically and professionally

## OUR BEHAVIOURS

**Integrity** – Our team acts ethically and professionally. We are fair and honest and do not tolerate coercive or misleading practices.

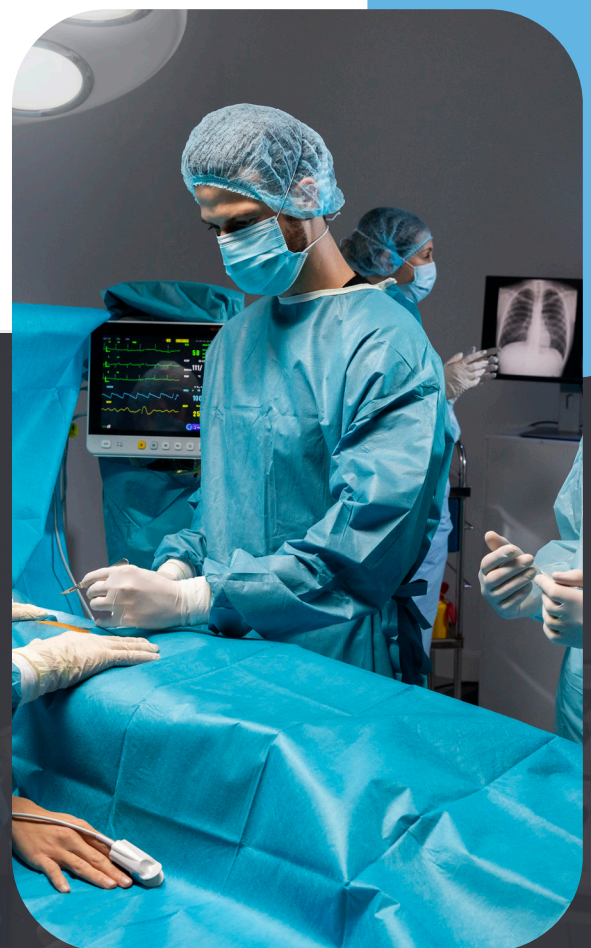

**Accountability** – We take personal responsibility for all we do that is under our control. We hold ourselves accountable to our colleagues and all those who depend on us.

**Compliance** – Our team upholds and complies with all applicable laws and regulations. We uphold the standards of practice by complying with current business policies and procedures.

**Confidentiality** – Our team respects the confidentiality of our patients and colleagues as well as their information. We do not share this information without their prior written consent or as otherwise directed under law. Our team preserves intellectual property and moral rights of the company and associated stakeholders.

**Conduct** – We treat our patients and colleagues with respect and courtesy, regardless of their background and individual or cultural differences. We do not support any form of discrimination or harassment and we encourage workplace diversity. Our team exercises diligence and duty of care obligations and avoiding conflicts of interest. We abide by our Core Values.

**Relationships** – We look for and build good working relationships to achieve our common goals and foster good teamwork. This allows us to work collaboratively in a respectful, open and honest manner.

## ANTENATAL & POSTNATAL CLINIC

From the moment you find out you are expectant, we are there for you and we will support you throughout the pregnancy journey.

Our clients are managed by experienced midwives and clinicians.

Scheduled investigations and follow-ups are done throughout the pregnancy period. To ensure a healthy baby, we offer early and regular antenatal care where an antenatal profile for all expectant mothers is done and conditions are diagnosed early and managed effectively.

Our postnatal clinic offers a variety of services including health education and counseling services to post-delivery mothers.

Our clinics offer comprehensive high quality care that is woman-centered before and after birth.

## LABORATORY SERVICES

Aleph Polyclinic has an advanced laboratory whose mission is to provide accurate results that enable timely diagnosis. The department boasts of modern high standard equipment used to run a variety of procedures covering all routine and specialized tests.

## OUT-PATIENT DEPARTMENT

Aleph Polyclinic has an outpatient department that provides services including: Paediatrics, Obstetrics & Gynaecology, Internal Medicine, Pharmacy, Dental, Minor surgical procedures such as Circumcision and Major surgical procedure such as Hernioraphy etc.

## PHARMACY

We offer a 24-hour Pharmacy services. Our pharmacy department has the capacity and ability to prepare different drug formulations for patients to meet special needs. It is well stocked with a wide range of affordable and quality products.

## **RADIOLOGY DEPARTMENT**

Our Radiology department has a modern 3D/4D Ultra-sound machine that can do Doppler, Formal Abdominal, Transvaginal, Small part, Obstetrics & Gynaecology, and Echo (ECHO) Cardiograms. The unit has a ECG machine (Electrocardiogram) that measures and records the electrical activity of the heart. The Unit has a digital X-Ray machine that produces quality images. Dental X-Ray – Dental X-rays (radiographs) are images of your teeth that your dentist uses to evaluate your oral health. X-ray Imaging – An X-ray is an imaging study that takes pictures of bones and so tissues.

## **CARDIOLOGY CLINIC**

Our clinic provides a wide range of treatments and interventions for heart and vascular conditions.

## **DERMATOLOGY CLINIC**

Our clinic is run by experienced dermatologists who offer high-standard care for a variety of skin, hair, and nail disorders/conditions.

## **OBSTETRICS & GYNAECOLOGY CLINIC**

Our clinic providing high quality maternity care for all expectant mothers.
